# Backlink Indexing

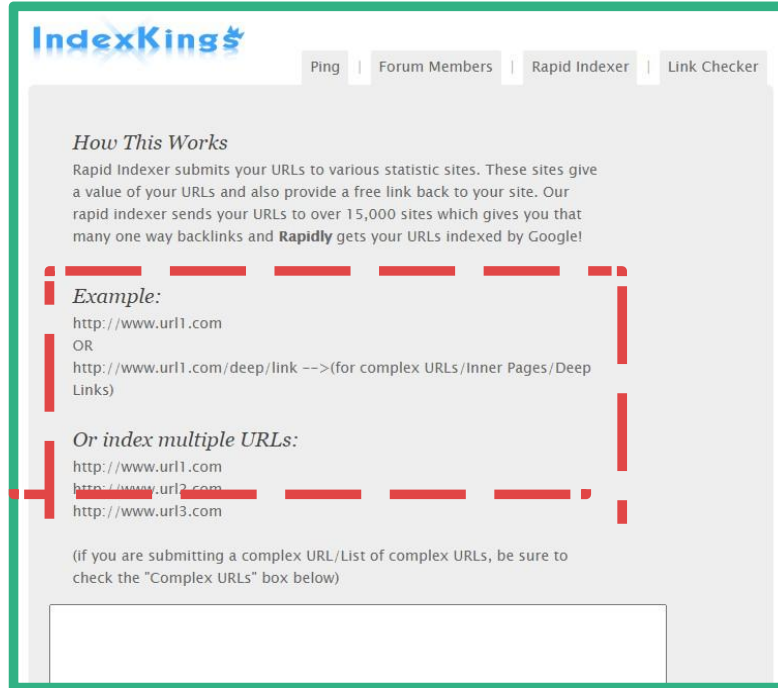

Getting your backlinks indexed is critical to the success of any link building campaign.

There is no point creating links if Google doesn't index them you are just wasting your time, energy and money.

Indexing backlinks used to be a lot easier than it is today, we could just ping them or create RSS feeds and submit them to RSS directories.

# Backlink Indexing

**IndexKings** | Ping | Forum Members | **Rapid Indexer** | Link Checker

*How This Works*

Rapid Indexer submits your URLs to various statistic sites. These sites give a value of your URLs and also provide a free link back to your site. Our rapid indexer sends your URLs to over 15,000 sites which gives you that many one way backlinks and **Rapidly** gets your URLs indexed by Google!

*Example:*

`http://www.url1.com`  
OR  
`http://www.url1.com/deep/link -->(for complex URLs/Inner Pages/Deep Links)`

*Or index multiple URLs:*

`http://www.url1.com`  
`http://www.url2.com`  
`http://www.url3.com`

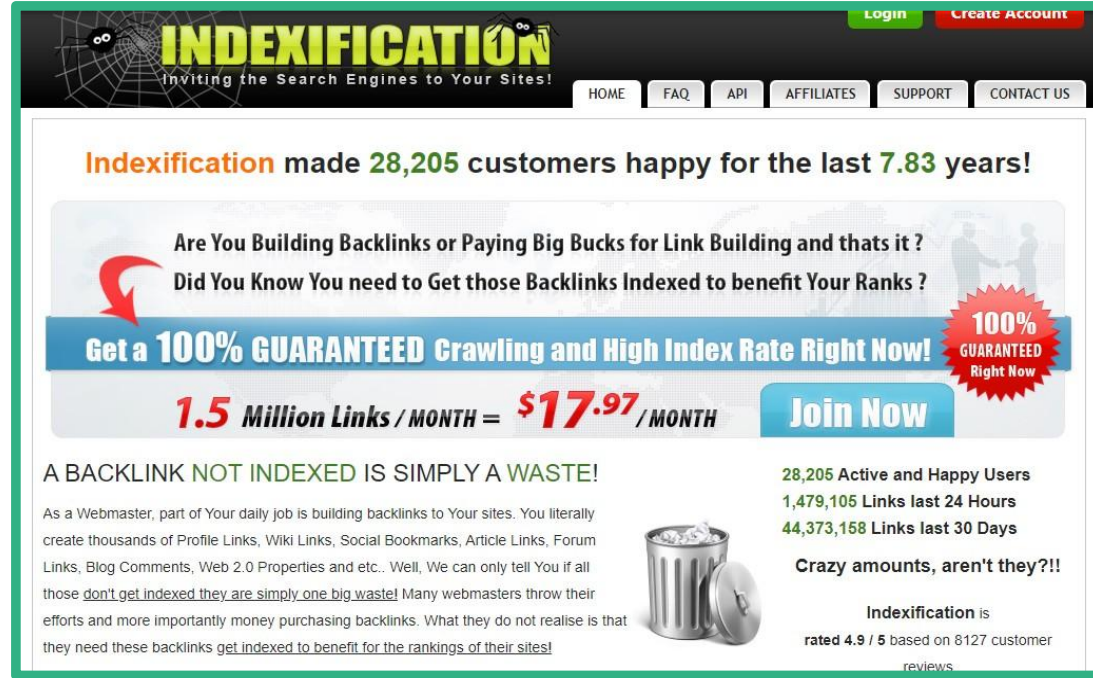

(if you are submitting a complex URL/List of complex URLs, be sure to check the "Complex URLs" box below)

# Backlink Indexing

The screenshot shows the PingFarm.com website. At the top left is the logo "PingFarm.com" with a house icon. To the right are navigation links: "Ping", "Forum Members", "Rapid Indexer", and "Link Checker". Below the navigation is a banner with the text "MONSTER BACKLINKS!" and "THE BEST WEBMASTER MARKETPLACE ONLINE TODAY!". The main content area has the heading "How This Works" and a paragraph: "PingFarm is a service which notifies Search Engines that your blog or website has been updated." Below this is a red dashed box containing the text: "Usage is simple, paste your URLs in the textarea below or upload a text based file (1 URL per line)." Underneath is an "Example:" section with three URLs: "http://www.url1.com", "http://www.url2.com", and "http://www.url3.com". At the bottom of the red dashed box is a large empty white rectangular area for pasting URLs.
